

Transboard

Stand out from the rest of the marketplace with Transboard, the first translucent board.

Transboard is a sustainable option to rigid plastics in the creative, arts & crafts and graphic industry.

Suitable for applications where a thicker stock is required, Transboard is an ecofriendly alternative for hang tags, ring book covers, opulent business cards or luxury packaging.

Why choose Transboard?

- First translucent board
- Alternative to rigid plastics
- Recyclable and biodegradable
- Good printability
